

I oppose the proposed rule that if enacted would give LPFM a priority over FM translator service. I support K-Love radio. I reside in Great Bend, Kansas and this is the only radio channel me and my children listen to. We were glad when we found out that it is now available in Topeka and Wichita. For the longest time we could only get K-Love in Kansas here in Barton County. Now we can get it while in those others areas. Please don't allow any changes that would eliminate our ability to listen to this commercial free christian broadcast. My children insist this be the music channel on while going to and from school. They also tune in at night while they are getting ready for bed. I also appreciate their unbiased news reports. I feel that many non-believers are lead to accept christ through this fantastic music ministry. As the motto states-Positive & Encouraging K-LOVE.
